```
**********************************************
* ERRORS/CHANGES (DETECTED & CORRECTED AS OF *
* 15 MAR 90) IN RELEASE 1.0 OF THE VAX BOOK: *
**********************************************
```

The following information is provided to help you keep your current copy of the VAX BOOK as timely and error free as possible. Please make the changes noted and add this change history to the back of your book.

PAGE

30 "USING THE EDT FULL SCREEN TEXT EDITOR:"
Delete end-of-line is incorrectly shown as <KP 4>. Please change: <KP 4> to <PF 4>

51 "SETTING VERSION LIMITS:"
SET DIR/VER is incorrectly shown with a filename instead of a directory name. Please change: [000000]JDOE.DIR to [JDOE]

103 "WHAT IS NEWS:"
Typographical error. In the last paragraph on that page, change "mmay" to "may".

110 "DELAWARE'S OCEAN NETWORK INFO CENTER:"
Typographical error. Please change "cam" to "can".

113 "TIME SERVERS:"
Typographical error. In the paragraph titled "FROM THE NETWORK", please change "the the" to "the".

118 "NOTES ON DISTANT LIBRARY CATALOG ACCESS"
Typographical error. In the paragraph titled "ONLINE RESOURCES", please change "propriety" to "proprietary".

120 "ONLINE LIBRARY CATALOGS"
In "CALIFORNIA-BERKELEY'S CATALOG:" add a note that GOPAC.BERKELEY.EDU is the same as "128.32.159.19"

```
PAGE

120  "ONLINE LIBRARY CATALOGS":
     Add Case Western Reserve University's
     Library Catalog:

     $ DEF TELNET_ESCAPE "|"
     $ TELNET EUCLID.CWRU.EDU

     TO LOGOFF:
     |Q             <-- vbar Q quits + closes

125  "ONLINE LIBRARY CATALOGS":
     Add Michigan State University's MAGIC
     Library Catalog:

     $ DEF TERM "vt100"        <-- lowercase!
     $ TN3270 MAGIC.MSU.EDU
     [at the VM 370 screen] <RETURN>
     DIAL MAGIC <RETURN>
     <RETURN>         <-- goad it into action

     TO LOGOFF:
     <CTRL-C>     <-- escape to TN3270 prompt
     tn3270> QUIT

126  "ONLINE LIBRARY CATALOGS:"
     Add Monterey Institute of Technology's
     (Mexico) Library Catalog:

     NOTE: This library catalog's content
     and interface is in SPANISH. If you
     cannot read and comprehend SPANISH do
     not attempt to use this online catalog!

     $ TELNET MTECV2.MTY.ITESM.MX
     login: mtycat     <-- must be lowercase!
     R            <-- specify "remote" option

     TO LOGOFF:
     s <return>      <-- "salir" logs you out
```

PAGE

126 "ONLINE LIBRARY CATALOGS:"
Replace access path shown in the VAX BOOK for the University of New Mexico with the following less-resource intensive method:

```
UNIV. OF NEW MEXICO'S GENERAL LIBRARY:
$ DEF TELNET_ESCAPE "|"
$ TELNET LIBROS.UNM.EDU

TO LOGOFF:
|Q          <-- vbar Q quits and closes!

UNIV. OF NEW MEXICO'S MEDICAL LIBRARY:
$ TELNET BIBLIO.UNM.EDU
login: mclpub     <-- must be lowercase!
```

129 "ONLINE LIBRARY CATALOGS"
Typographical error. In the "USING TEXAS A&M LIBRARY SYSTEM:" section, change "Usernaem:" to "Username:"

130 "ONLINE LIBRARY CATALOGS:"
Replace access path shown in the VAX BOOK for University of Texas-Dallas with the following less-resource intensive method:

```
$ TN3270 VM.UTDALLAS.EDU
<use tabs to move down to COMMAND line>
LIBRARY <RETURN>
<CTRL-Z>      <-- clear screen in TN3270
```

131 "ONLINE LIBRARY CATALOGS:"
Add University of Washington's Catalog:

```
$ TELNET LIBCAT.LIB.WASHINGTON.EDU
<RETURN>          <-- wake the catalog up
```

175 "USING LINDO"
Typographical error. Remove the tick marks from around the divert filename 'TEMP.LIS' in both examples shown.

181 "OTHER DATABASE MANAGEMENT PACKAGES:"
NOTE TO UNIVERSITY OF OREGON USERS ONLY: Availability change. Due to changing software cost estimates, the question of database availability on the VAX 8800 is currently unpredictably fluid. We regret any problems this uncertainty may cause.

PAGE

200 "READING FLAT ASCII TAPES WITH CONVERT"
Potentially required parameter omitted. If the foreign tape you're reading or writing has a blocksize larger than the default blocksize (512 bytes for tapes mounted /FOREIGN) you'll need to explicitly specify /BLOCK=blocksize on the MOUNT command.

202 "TAPES"
In the "COPYING TAPE TO TAPE" section, the density parameter was accidentally omitted from the MOUNT command used to mount the target tape for LABELing. Add the qualifier /DEN=6250 to the MOUNT command which appears immediately above the LABEL command.

224 "MACINTOSH MISSING VALUE PROBLEMS:"
Typographical error. In the first paragraph, please change "a a" to "a".

256 "ENHANCING EVE:"
Essential command element accidentally omitted. In the "LEARNING A SEQUENCE OF KEYSTROKES:" section, the key to be bound is omitted. Add <CTRL F> after <CTRL R>

262 "ERROR MESSAGES IN ENGLISH"
Typographical error in the "ENTER CLASS" section. Change "lone" in the third paragraph to "alone".

279 "SUPERCOMPUTING"
Availability change. In the "EMACS?" section, note that NCSA announced the availability of GNU EMACS as a minimally supported package in the January 1990 issue of "data link".

PAGE

281 "SUPERCOMPUTING"
Command changes. "NCAR GRAPHICS" section: NCSA has changed how users interact with NCAR Graphics. Replace the two lines beginning "% cft77" and "% ncargldr" with the single line: "% ncargf77 mygraf.f". Also, change "GMETA" to "gmeta".

284 "SUPERCOMPUTING"
Availability change. Under "Computational Fluid Dynamics" add FLUENT.

284 "SUPERCOMPUTING"
Availability change. Under "Chemistry" add MINP.

284 "SUPERCOMPUTING"
Availability change. Under "Solid Mechanics and General Engineering" remove MENTAT (which isn't available under UNICOS yet); note that MARC itself SHOULD continue to be shown as being available.

NOTES FOR LOCAL UNIVERSITY OF OREGON HOLDERS OF PRE-PRINTED COPIES OF THE VAX BOOK ONLY:

It has come to our attention that (in at least some cases) page 97 of the VAX BOOK (describing a nationwide list of anonymous FTP sites, and describing some particularly popular anonymous FTP sites) may somehow have been omitted from pre-printed copies of the VAX BOOK distributed by a local copy center. If you've purchased a pre-printed copy of the VAX BOOK and are missing page 97, please contact Joe St Sauver at 346-4394 extension 25 for information on obtaining a copy of that missing page.

Also, a comparatively small number of (early) purchasers of the pre-printed VAX BOOK may also have gotten an index which contains a number of discrepancies. You can tell if you have the "bad" index by looking at your copy's index – if, for example, it shows page 239 for "Abnormal Terminations (EDT)", please also contact Joe for information on obtaining a corrected index for your copy of the VAX BOOK. If your copy's index shows page 238 for "Abnormal Termination (EDT)", your index is CORRECT and does not need any adjustment at this time.

Many thanks to everyone who noted and contributed to the corrections appearing above. If/when you find remaining bugs in the VAX BOOK, please remember to drop me a note and let me know.... Again, thanks!

Joe St Sauver
(JOE@OREGON or JOE@OREGON.UOREGON.EDU)
